Puchong, Selangor | linkedin.com/in/adam-syafi-430919326 | github.com/Syafiyyy

PROFILE

Full-stack developer and IT degree student with hands-on experience building production-style web and mobile applications, including an AI-powered motor insurance PWA with payments, claims automation, and regulatory compliance features. Diploma graduate with first-class honours (CGPA 3.60). Seeking an internship or software developer role to contribute to real-world products while growing as an engineer.

EDUCATION

UNIVERSITI POLY-TECH MALAYSIA (UPTM) *Dec 2025 – May 2028*

Bachelor of Information Technology (Hons) in Computer Application Development

- **Relevant Coursework:** Advanced Application Development, Database Management, Software Design, Software Project Management, IoT Technologies & Applications, Networking (Cisco CCNA ITN)

UNIVERSITI POLY-TECH MALAYSIA (UPTM) *Jul 2023 – Nov 2025*

Diploma in Computer Science | CGPA 3.60/4.00, First Class, Dean's List

- **Concentrations:** AI Development, Web Application Development
- **Relevant Coursework:** Data Structures & Algorithms, Object-Oriented Programming, Web Application Development, Express Application Development, UI/UX Design, System Architecture, Agile Methodology

SMK PUTRA PERDANA *Mar 2018 – Mar 2023*

Sijil Pelajaran Malaysia (SPM), Pure Science Stream

PROJECTS

DriveCover – AI-Powered Motor Insurance Progressive Web App *Apr 2026 – Present*

Final Year Project (Early Development) | *Full-Stack Developer*

- **Developed** a B2C motor insurance PWA for the Malaysian market covering the full policy lifecycle: quotation, purchase, claims, renewal, and cancellation.
- **Built** the backend with NestJS, Prisma ORM, and Supabase (PostgreSQL), enforcing Row Level Security across all 19 database tables.
- **Integrated** Stripe payments with webhook-driven policy issuance and automated refunds for the BNM-mandated 15-day cooling-off period.
- **Implemented** an AI claims module using Google Gemini, including a conversational FNOL flow and vision-based vehicle damage assessment.
- **Engineered** insurance business logic for NCD progression, renewal orchestration, and total-loss/betterment calculations, backed by 377 automated tests.

- **Delivered** compliance features including LHDN e-invoicing, PDF e-Cover Notes with QR verification, and transactional email via Resend.
- **Conducted** a 62-point self-audit covering security, underwriting correctness, and BNM/PDS compliance, and resolved all findings.

Competitive Chess Game for UPTM Chess Club – Mobile Application *Jan 2024 – Apr 2025*

Developer

- **Developed** a cross-platform mobile chess app with Flutter and Firebase, featuring single-player and real-time multiplayer modes.
- **Integrated** the Stockfish chess engine with adjustable difficulty to support both beginner and advanced players.
- **Designed** progress tracking and a friend system based on requirements gathered from club members.
- **Applied** Agile methodology with iterative user testing, achieving 100% user satisfaction in UAT.

TECHNICAL SKILLS

- **Languages:** TypeScript, JavaScript, Java, Python, Dart, SQL, PHP, HTML/CSS
- **Frontend:** React, Next.js, Tailwind CSS, Flutter, JavaFX
- **Backend:** Node.js, Express, NestJS, Laravel, Prisma ORM
- **Databases & Services:** PostgreSQL (Supabase, Row Level Security), MySQL, Firebase
- **APIs & Integrations:** Stripe (payments, webhooks), Google Gemini API, Resend
- **DevOps & Tools:** Git/GitHub, Docker, VS Code, NetBeans, Android Studio, Cisco Packet Tracer, Claude Code
- **Design:** Figma, Canva
- **Concepts:** REST API design, PWA, automated testing, UML & design patterns, ERD & normalization (3NF), Agile

WORK EXPERIENCE

Part-Time Assistant – Ainna Artwork Store, Central Market *Sep 2024 – Mar 2025*

- Supported batik painting workshops by preparing materials and guiding participants.
- Handled sales records and managed customer bookings for workshops.
